

DITCH THE ITCH skin spray

ROAR's DITCH THE ITCH skin relief spray provides instant relief for itchy skin. A potent blend of natural anti-histamines, anti-inflammatories and skin healing products – this blend is guaranteed to soothe and comfort sensations of itching and burning in the skin – which in turn stops the excessive scratching and licking.

Directions for use:

Avoid spraying the face – particularly ears, eyes, nose and mouth. Spray elsewhere on your dog's body as often as needed, making sure the spray makes contact with the skin. For dogs with fuller coats this may mean parting the hair, spraying onto the skin and brushing through the coat to ensure full coverage.

Ingredients:

Water, Manuka Hydrosol, Manuka oil, Kanuka oil, Lavender oil, Karanja oil, Quercetin, Neem oil, Melissa oil, Soy lecithin
