

Hot Spot skin spray

ROAR's HOT SPOT skin spray is a topical treatment, that can be applied directly onto the skin requiring help. It helps with:

- Rashes
- Inflammation
- Irritation
- Alopecia
- Dermatitis
- Ringworm
- General itchy skin...
- ... and other fungal and bacteria skin issues.

Directions for use:

Apply twice daily to the affected skin area. Continue using for a further 7 days after the condition appears to have resolved, to ensure full treatment has been applied.

Ingredients:

Distilled water, organic sugar, EM-1 inoculant.
